ART EXHIBITIONS  
*\*femme*  
*\*the women's project*  
*\*forget me knots*

Three openings in one day 8 March on the Gold Coast to celebrate the achievements of women artists for the anniversary of *INTERNATIONAL WOMENS DAY 2011*.

***Forget Me Knots*** floating ephemeral art event. Opening 8 March, **9am - 11am** onsite at the Smith Street entrance to the Broadwater (water's edge near the bait shop). All welcome. The event will be filmed onsite.

***Femme*** exhibition at the *Robina Community Art Gallery*, Gold Coast, opening 8 March, **2pm - 4pm**. Closing 19 March.

***The Women's Project*** exhibition at *19Karen Contemporary Artspace*, Gold Coast, opening 8 March, **6pm - 8pm**.

This is an opportunity on the Gold Coast to survey the diversity of mixed mediums in contemporary women's art practice; to celebrate *IWD 2011* anniversary; and to explore the feminine aesthetic through art.

These events are listed with [www.internationalwomensday.com](http://www.internationalwomensday.com)

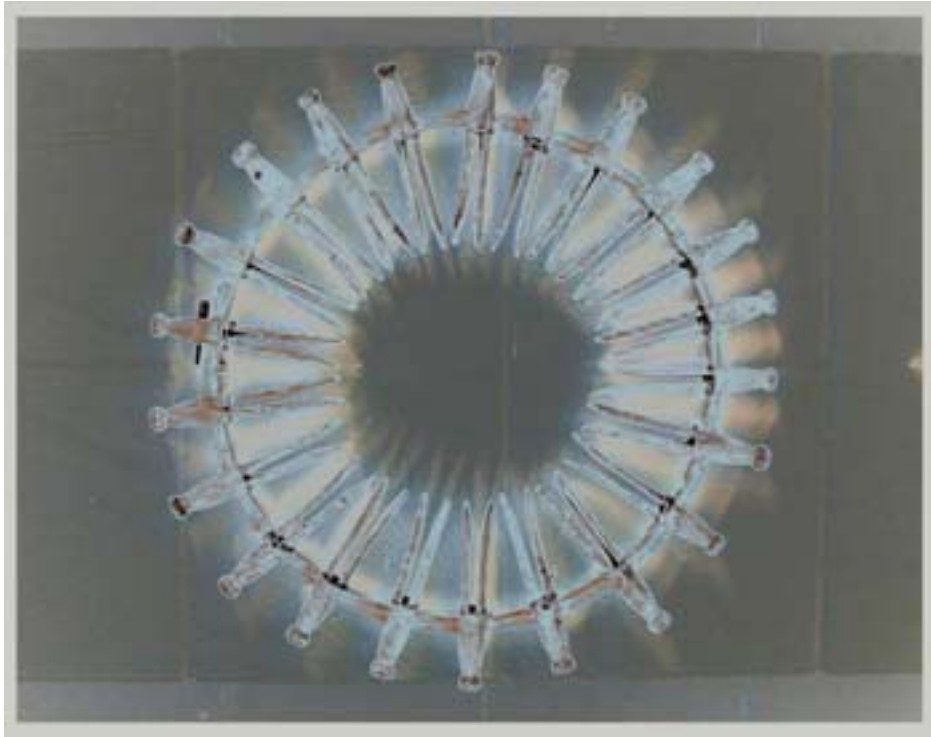

These three exhibitions are attracting high calibre artists, writers and sponsors throughout the Gold Coast including *19 karen contemporary artspace, robina community art gallery, arworkers alliance, griffith alumni members, artists, judy anderson (writer), corinne colbert (doktor-frock.com), midge johansen (vice president, sculptor's society gold coast inc.), gold coast potters association, jenny fraser (cybertribe and friends)*.

The high quality of in-kind support for the project's administration (Potters Association) and workshop (Corinne Colbert) will help to ensure the success of this project. In addition, the originator, convenor, managers and sponsors are all engaged in the artistic endeavour. We anticipate having the list of participating artists by late January 2011. For the artists there exists an opportunity to showcase their art on an egalitarian platform. *International Women's Day* is an opportunity for artists to deal with women's social issues through an exploration of the female aesthetic.

Yours truly
